## MANY STEAMERS DUE THIS WEEK

Mail will go to the coast this afternoon on the Oceanic liner Sierra which is due to arrive from Sydney, Auckland and Pago Pago early this morning. This steamer will be the first of a number to call here this week, breaking a week of dullness as far as steamers are concerned. Tomorrow the Sierra's sister ship the Ventura, is due to arrive from San Francisco with a week's mail. The Ventura was eight hours late in leaving the coast port, being held for the English mails. At her usual rate of speed that would bring her here at about 2 p. m. tomorrow. It is likely, however, that she will speed up and arrive in the morning. Another steamer is due from the coast tomorrow. This is the American-Hawaiian liner Nevada which was also delayed in sailing. She lost a propeller near Tacoma and left San Francisco for this port five days late. A cablegram received here by her agents stated that she carried no mail. She is expected at about three o'clock tomorrow afternoon.

A third steamer due tomorrow is the Canadian-Australian liner Moana which is due from Sydney, Brisbane and Suva. She will probably arrive early in the morning though she may make port tonight. She will sail tomorrow for Victoria and Vancouver, carrying the Canadian mails. The Moana of the same line is due Saturday morning from Canadian ports on her way to the Colonies. Friday the U. S. A. T. Logan will be due from Manila with a big load of troops going home to the States. Sunday or Monday the Sherman will be here from San Francisco. The twin ships Korea and Siberia of the Pacific Mail line will be here together on Monday.

### MINNESOTA LOSING MONEY.

San Francisco, April 16.—Reports are current on the northern coast that the mammoth steamer Minnesota, owned by James J. Hill of the Great Northern Railway company, will lose \$60,000 as the result of her first voyage to the Orient. Although she carried many passengers and a cargo of 22,000 tons of freight, the fact that the big steamer could not discharge except by means of lighters, and at a long distance from the usual places in the Oriental ports, has proved one discouraging source of expense. It is said, also, that the cost of operating the Minnesota amounts to \$2,500 a day, or nearly twice as much as other vessels carrying nearly as much freight. The great draft of the Minnesota and her slow speed appear to have placed a ban upon her as a competitor for business on the Pacific.

### PUNCH BOWL FOR PEGASUS.

The Tacoma Ledger has the following item concerning the ship Pegasus which called at Honolulu recently enroute to the Sound:

When Captain Abraham Scott, master of the splendid four-masted British bark Pegasus, now at the dock of Savage, Scofield & Co., finds himself in distant parts of the world, he will never forget his memorable visit to Tacoma.

Yesterday afternoon he was the recipient of a handsome silver punch-bowl presented to him by the Retail Grocers' association of this city. This is a souvenir of the trip made by the Pegasus to the upper waterway, passing through two bridges and establishing a new epoch in the shipping history of this port. The occasion was a happy one for both the jolly skipper and the grocers who remembered him.

### TOYO KISEN PLANS.

According to the Tokyo Asahi, the Toyo Kisen Kaisha has decided to open a steamship service between Japan and South America as soon as peace is restored. It is stated that the company's three steamers which have hitherto been used on the Pacific line will be placed on the new South American service. In this connection, the company has recently placed an order with the Nagasaki Shipbuilding Yard for the construction of two steamers, each of 12,000 tons displacement.

### SHIPPING NOTES.

The ship William P. Frye will discharge the remainder of her mud ballast into scows.

The ship Henry Villard from New York should be showing up soon. She is now 114 days out.

The next of the American-Hawaiian liners to arrive after the Nevada, is the Californian now 66 days out from New York. She is about due at San Diego.

## WEEKLY CROP BULLETIN.

For the Week Ending April 29, 1905.

Honolulu, T. H., May 1, 1905.

### GENERAL SUMMARY.

Showery weather has prevailed during the past week in nearly all sections of the Group, with strong trade winds and temperatures somewhat below the normal.

Young cane has made fair progress, but needs rain badly in leeward Hawaii and would be benefited in all sections by higher temperatures. The harvesting and grinding of matured cane is proceeding rapidly, but has been interfered with in the Hilo and Hamakua districts of Hawaii by muddy roads which render transportation difficult. Harvesting is completed in the northern portion of the Puna district of Kauai. Planting for the 1907 crop of cane continues, but will be completed later than usual in the Puna district of Hawaii on account of the rather late start in the harvesting of the current crop. Coffee trees generally have blossomed well during the recent showery weather, but the blossom has been damaged somewhat by high winds in the Koolau-poko district of Oahu. Pasture lands need rain in leeward Hawaii and leeward Oahu, but are in very satisfactory condition elsewhere. Pineapples for the summer crop are developing rapidly; rice in all sections is growing well.

A heavy earthquake shock was experienced at Naalehu, Hawaii, at 12:53 p. m. of the 22nd instant, but caused no damage. Kilauea crater, in Hawaii, continues in active eruption.

### REMARKS BY CORRESPONDENTS.

#### ISLAND OF HAWAII.
